OUR FOUNDATION

Delivering high-availability technology solutions across Egypt & Saudi Arabia.

Strictly Confidential, For Recipient Only

ABOUT OUR COMPANY

A BRIEF STORY ABOUT THE COMPANY

Founded in 2018, Crystal Technology Solutions is a specialized provider of ICT and low-current solutions, delivering integrated systems for enterprise and mission-critical environments.

Since inception, the company has achieved consistent growth by focusing on deep technical expertise, attention to detail, and a strong understanding of client requirements. Building on a solid presence in Egypt, Crystal Technology Solutions has successfully expanded into the Kingdom of Saudi Arabia, reinforcing its position as a trusted regional system integrator.

BRINGING IDEAS AND INNOVATION
TO LIFE THROUGH TECHNOLOGY

ABOUT OUR COMPANY

OUR CONCEPT

Crystal Technology Solutions is founded on delivering high-availability technology solutions that reduce operational downtime, maximize return on investment, and enable organizations to perform at their highest potential.

Our approach combines innovative technologies with proven methodologies to deliver reliable, practical, and scalable solutions tailored to real operational needs.

- State-of-the-art technology
- Deep technical expertise
- Proven and unrivaled experience

TECHNOLOGY THAT EMPOWERS,
PERFORMANCE THAT DELIVERS.

ABOUT OUR COMPANY

OUR METHODOLOGY: STRATEGY & EXCELLENCE

Our methodology is built on a strategic framework designed to deliver innovation, precision, and measurable business impact across every project lifecycle.

By combining industry insight, adaptive innovation, and disciplined execution, we ensure seamless system integration and long-term operational performance.

- Empowering enterprises through technology
- Adaptive innovation aligned with market demands
- Industry-driven solution design
- Precision execution and integration
- Strategic decision support
- User-centric technology focus

VISION

To become a leading ICT system integrator in the Middle East, delivering innovative and reliable technology solutions that drive digital transformation.

MISSION

To provide high-quality ICT and low-current solutions through technical excellence, strong partnerships, and a commitment to customer success.

OUR VALUES

- Integrity
- Accountability
- Excellence
- Trust

WHY CHOOSE US ??

OUR GOVERNANCE

Crystal Technology Solutions offers a unique combination of technical expertise, regional presence, and end-to-end delivery capabilities, making us a trusted partner for complex and mission-critical projects.

Our Strengths:

Regional Reach: Fully operational branches in Egypt and Saudi Arabia.

Sector Expertise: Proven track record across all business sectors

Full Lifecycle: End-to-end project lifecycle delivery

Certified Leaders: Certified leadership and engineering teams

Tier-1 Vendors: Partnerships with Tier-1 global technology vendors.

One-Stop Shop: for ICT, ELV, and AV solutions

SOLUTIONS & SERVICES

Crystal Technology Solutions provides a comprehensive portfolio of ICT and low-current solutions designed to meet the evolving needs of enterprise and mission-critical environments.

Our solutions are built on leading global technologies and integrated by certified professionals to ensure reliability, scalability, and long-term performance.

SOLUTIONS & SERVICES

OUR SERVICES

DATA CENTER SOLUTIONS

Data Center Infrastructure Preparation Solutions:

Cooling systems, raised floors, racks, backup power, low-current systems, network infrastructure, fire suppression, detection, and monitoring systems.

Data Center Enterprise Network:

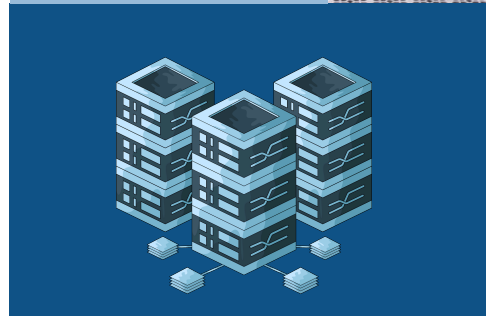

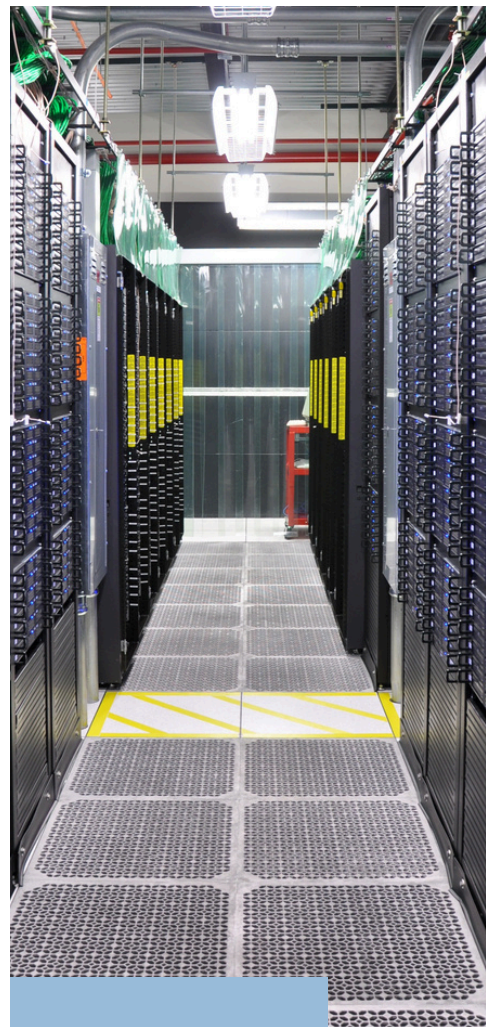

Network infrastructure, wireless solutions, network assessment, and cable management services.

Data Center Enterprise Computing:

High availability solutions, virtualization and cloud platforms, servers, storage, backup, disaster recovery, and replication solutions.

Data Center Enterprise Security:

Firewall solutions, endpoint security, and network access control systems.

OUR SERVICES

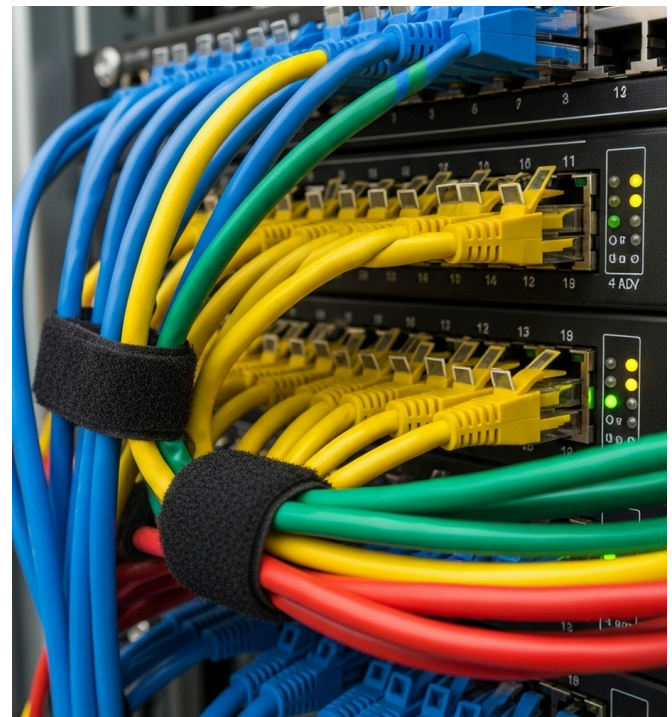

networking solutions

- Campus networking infrastructure
- Industrial networking
- Mobility and wireless solutions
- Routing and switching
- IP telephony

Structured Cabling Systems

- Copper and fiber optic systems
- Wire termination and labeling
- Cabinets, racks, and enclosures
- Cable routing, management, and protection
- Identification and documentation systems

OUR SERVICES

Audio visual & collaboration solutions

- Unified communication systems
- Video conferencing solutions
- Digital media signage
- Video wall solutions
- IPTV and content delivery
- Audio systems
- Projectors and screens
- Control systems and switchers

Physical Security Systems

- Access control systems
- Intrusion detection solutions
- Video surveillance systems
- Gate barrier equipment
- Public address systems
- Fire alarm systems
